

## FILIPINO CAPITAL CAPTURED TODAY

Taken by Detachment Under Lawton's Command

PUSHING NORTHWARD IN PURSUIT OF THE REBELS.

Special Expedition Under Major Kabbe, Have Started Up the Rio Grande From Calumpit—Constant Fighting Inflicting Heavy Losses and Suffering Few Casualties—Natives Return to Towns Inside the American Lines—Men of Fourth Artillery Attacked By Small Force of Insurgents—Five Killed and a Number Wounded.

Manila, May 17.—[Special]—A detachment under Lawton's command is now holding San Isidro, the Filipino capital, which was captured this morning by Lawton's advance guard, consisting of Oregon and Minnesota regiments and the Twenty Second regulars.

San Isidro was attacked early this morning and the insurgents were driven out.

Lawton is pushing northward in pursuit of rebels and a special expedition under Major Kabbe of the Third artillery, consisting of the Seventeenth infantry, a battalion of the Ninth infantry and a battery of artillery with three army gunboats, started up the Rio Grande from Calumpit yesterday.

Lawton Sees Constant Fighting.

Washington, May 17.—[Special]—The following was received from Gen. Otis this morning: "Lawton, with tact and ability, has covered the Bulacan province with his column and driven the insurgent troops northward into San Isidro, which he captured this morning and is now driving the enemy northward into the mountains.

"He has constant fighting and is inflicting heavy losses and suffering few casualties.

Natives Returning to Towns.

Manila, May 17.—[Special]—A large number of natives are returning daily to towns inside the American lines. Twenty-five men of the Fourth artillery, concealed in trenches near Pasig were attacked by a small force of insurgents today.

A few volleys put the rebels to flight, leaving five killed and a number wounded on the field.

The army gunboat Napingdan returned here with a broken rudder post. The vessel was disabled by a rebel cannon shot.

Manila, May 17.—San Isidro, which has been looked upon as one of the most important towns occupied by the insurgents, has been captured by the Americans. Both Gen. MacArthur and Gen. Lawton have been for several days making active preparations for a decisive assault upon this rebel stronghold. Reports have indicated that 9,000 or 10,000 well-armed insurgents were determined to defend the place.

Decisive Blow to the Enemy.

The town was taken at 9 o'clock Tuesday morning by Lawton's advance column under Col. Summers. It is considered a decisive blow against the insurgents, as the enemy will be compelled to retreat still farther into the mountains, and will find means of subsistence more difficult.

ACCUSE AMERICANS OF CRUELTY.

Harsh Criticism by Frenchmen of the Campaign in the Philippines.

Paris, May 17.—There is a marked tendency here now to dwell on the alleged cruelty of the American troops in the Philippines. Le Temps publishes extracts from three letters from American volunteers and makes comment: "The present campaign in the Philippines, which was undertaken in the name of humanity, thus appears to be a barbarous and inhuman war, differing in no respect from the cruelties attributed to the Spaniards."

The American embassy in Paris is optimistic as to affairs in the Philippines. It is believed by the American diplomatic staff that the termination of the war is near at hand.

Savages Use Poisoned Arrows.

London, May 17.—The Filipino junta here ridicules the statement that Aguinaldo is a fugitive, and declares his retirement to the Carballos mountains is part of his strategic plans, as the mountains are almost inaccessible and are inhabited by savages who use poisoned arrows, and that it is absolutely impossible for the Americans to follow him there.

Cruiser Charleston at Manila.

Manila, May 17.—The United States cruiser Charleston has arrived here from Hongkong. She touched at Aparri, communicating with the United States gunboat Concord, stationed at the mouth of the harbor.

Funston Has Had Glory Enough.

San Francisco, Cal., May 17.—Capt. F. E. Buchanan of the Twentieth Kansas regiment, who arrived from Manila yesterday on the Valencia, said regarding the future of Gen. Frederick Funston of that regiment: "Gen. Funston

has no political ambitions and does not care to mingle in politics in any shape or form. I know this to be a fact. When I last saw him, April 18, just before leaving Malolos, his plans were to go to Cuba as soon as the Filipino rebellion was over and engage in cattle ranching in one of the interior provinces. He said he had had all the adventures he wanted."

Troops to Occupy Jolo.

Madrid, May 17.—Gen. Rios, in command of the Spanish troops remaining in the Philippine islands, has cabled to the war office here announcing that he has entered into an agreement with Maj.-Gen. Otis, the American commander, for an immediate Spanish evacuation of Zamboanga and Jolo. Consequently, the dispatch adds, the steamer Leon XIII, has started with American troops, who will occupy Jolo and render honors to the Spanish flag on the departure of the Spanish troops.

Prince Said to Have Been a Spy. Victoria, B. C., May 17.—Manila papers received here by the Empress of China state positively that Prince Ludwig von Lowenstein-Wertheim-Freudenberg, who was shot by Oregon soldiers during the fight at Malabon, was a spy, if not in the pay of, at least in sympathy with, Aguinaldo.

Regarding trusts and expansion he said: "Populism, while refusing to lower the flag in the presence of any enemy on earth, would strike from the limbs of American workingmen the shackles of industrial slavery before they engage to emancipate the mongrel races of strange and foreign lands."

## WM. OWEN'S COMPANY SCORED DECIDED HIT

### PRESENTATION OF "THE THREE GUARDSMEN."

Greeted by a Fair Sized Audience—  
Will Play Return Engagement Friday, June 2—Master Frankie Richter, the Blind Pianist, Friday and Saturday—Robert Downing Coming.

Wm. Owen and his excellent company in the six-act romantic drama, "The Three Guardsmen," were greeted by a fair sized audience at Myers Grand last evening. The production and its able presentation, though, was worthy of a crowded house. "The Three Guardsmen" is one of Dumas' most interesting dramas and never fails to please. William Owen as D'Artagnan, an adventurer, took his part in a most acceptable manner and the audience present last evening appreciated the fact. J. W. McConnell as Cardinal Richelieu, was very good indeed and played his difficult part in a manner that could not help but please. L. H. Baker as the Duke of Buckingham and Frederick Hartley as Louis XIII, King of France were equally good. Alex Majors, Jr., as Athos, one of the king's guardsmen, displayed his dramatic ability most completely in his word picture of the story of his early marriage. The ladies were good as well. Miss Camilla Reynolds, as Anne of Austria, consort of the king, was perhaps the leading spirit, though Miss Winnifred Gray as Ponchet, hostess of the Jolly Miller, was equally good. The scenery was very good and the costumes were lovely and shown to a good advantage.

Mr. Owen has consented to play a return engagement of "The Three Guardsmen" on Friday evening, June 2. It can be truthfully said that the production is worthy of a crowded house and on that evening the "standing room" sign should be displayed.

The Blind Boy Musician.  
Providence disposes wisely and all things are equal, though perhaps in widely different ways. A striking illustration of this truth is the case of Master Frankie Richter, the blind boy pianist and composer. Kind providence has kindled in his soul a sublime passion for music. Although but ten years of age he is stirring men's souls with his wonderful abilities, playing the most intricate creations of Mozart, Mendelssohn, Chopin, Liszt, Beethoven and

FRANKIE RICHTER.

Wagner, and composes music that needs no revision. For his years he is the most thorough musician before the public. His accomplishments are many and varied. He plays any piece of music after once hearing it—a most striking illustration was the playing of Paderewski's "Minuet Antique" at the age of seven. He was invited to attend the great pianist's concerts and played by the request of the great pianist. His execution and accuracy were so marvelous that Paderewski picked him off his seat and kissed him with great emotion and told him that some day not far distant "he would out-rival him."

He whistles any note called for, gives the absolute pitch of any sound, and improvises from any given theme; arranges all his music for orchestra and plays with any instrument.

To appreciate him he must be heard. He will appear at Myers Grand Friday, May 19, and Saturday matinee and night, May 20, which affords the only opportunity to hear him, as Master Richter goes to Europe soon to spend some years.

Seats on sale at box office Friday, May 19, at 10 a. m. Prices 25 and 50 cents.

Janesville's Favorite Coming.  
Mr. Robert Downing who will appear at The Myers Grand on Monday, May 22, has long been ranked as the admirable of his profession and is probably as successful as any of the more prominent or reputable stars touring the country at the present time. He is not only a good player, but a writer as well, always guided by his intelligence and the likes and dislikes of the amusement seekers of today. His successes have been many; each honestly won, at all times showing great care, deliberation and earnest individuality into the strong argument of the play and characters portrayed.

Actors have their own notion of progress in the theatre which are not always gauged by the remuneration. They are also aware that audiences throughout the country have a high standard of art in mind and are not always chary of applause. Actors also generally have a great opinion of their own ability, and are willing to undertake the winning of a verdict from even the most hostile of juries. This, when success is finally reached, gives them the courage and ambition necessary to reach the top of the ladder of fame, by constant attention to their work. Mr. Downing has for many years perched on the top round and so installed himself into the good graces of theatre goers everywhere by his presentation of plays which have always been acceptable, amusing, entertaining and instructive.

ROBERT DOWNING

He has been carefully and beautifully produced at all times with never a detail lacking—always supported by artists of acknowledged ability and reputation.

### Y. M. C. A. TEAM PLAY FIRST GAME

Defeat the All Leaguers By a Score of 6 to 1.

Yesterday afternoon as the big battle bellowed, the local Y. M. C. A. baseball team made its bow, notwithstanding the fact that the day was stormy, cold and anything but favorable for a game. The game was not called until 3:45 o'clock and the diamond had the appearance of an artificial lake, but even the many obstacles did not prevent the game, for the boys were determined to play, and play they did. A wagon load of sawdust was secured in a hurry and the game went on. A portion of all-leaguers, the Y. M. C. A. opponents, failed to appear on the scene and substitutes were hustled into their places. The game was very one-sided. Only seven innings were played, the Y. M. C. A. not finding it necessary to play the last half of the seventh. The game resulted in a score of 6 to 1. Adkins, the new pitcher for the Y. M. C. A. is a wonder at twirling the sphere. Larson pitched for the all-leaguers and held his opponents down very well indeed.

The line-up of the two teams was as follows:

Y. M. C. A.	Position	ALL LEAGUERS.
McMasters	C.	Carle
Adkins	P.	Larson
Fisher	1b.	Crall
Brown E.	2b.	Conners
Brown R.	3b.	Cooley
Not	S.	Sullivan T.
Palmor	C.	Bennett
Blankly	C.	Conroy
Merrill	C.	Sullivan M.
Y. M. C. A.	3	0 1 1 0 1
All Leaguers	1	0 0 0 0 0 1

It is to be hoped that the next game in which the Y. M. C. A. team participate, will be played under more favorable circumstances.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicine for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISMAN, Gaars Mills, La. For sale by People's Drug Co.

## CHARMING STRANGER

"Is he handsome, Myrtle?" asked Mrs. Payne.

"The handsomest man I ever saw," replied Myrtle Poole.

Harry Payne sighed gloomily as he placed upon the kitchen table the pail of water he had brought from the spring.

"Was he at your party, Myrtle?" continued the mother.

The fair girl assented.

"What's his name?"

"Reginald Clavering."

"What is he?"

"He's a Wall street banker, in some way connected with the Rothschild Brothers of London. He dresses like a prince and wears such diamonds! All the girls are crazy about him."

"The more fools they," returned Mrs. Payne, severely. "Harry, will you bring me another armful of wood?"

Harry looked troubled, and Mrs. Payne followed him out into the shed, laying her hand upon his shoulder.

"I'd say nothing to her now," she advised. "This elegant stranger has turned her head completely."

Harry vanished accordingly, and Mrs. Payne returned to her baking, while Myrtle Poole continued to chatter about Reginald Clavering until the good matron felt like boxing her pretty pink ears.

That same afternoon Harry saw Myrtle riding out with the distinguished stranger, and his gloom deepened.

"Myrtle," he said to her the following day, as he met her near the old mill in the suburbs, "I am going to Mill Creek this morning. Wouldn't you like to go with me?"

"Not today, Harry. I have a previous engagement."

"With Mr. Clavering?"

"Yes. We are going to the woods to gather autumn leaves."

"Myrtle, the friendship and devotion of years to be forgotten because such a chap as that happens to appear here?"

Miss Poole turned her head and turned away.

"I am tired of being called to account," she said petulantly. "I shall do as I please about receiving the attentions of Reginald or any one else, and I think it a piece of impertinence for you to seek to interfere with me, so there! Leave me!"

Harry had not been gone ten minutes when Reginald Clavering came whistling down the bank of the creek.

"Here already, my queen of brunettes?" he cried gayly. "How punctual you are!"

"And you are half an hour behind time," pouted Myrtle, with a smile of welcome.

"Impossible! But let me have that basket. Not even so slight a weight as that should burden the loveliest hand in christendom."

Myrtle glanced at the little gloved hand. It was pretty, but Harry had never told her so. How nice to be in the society of such a discriminating man of the world!

"And now for an answer to my question of yesterday," continued the stranger, as they entered the woods. "Am I to call you mine?"

"Do you really love me?" demanded Myrtle, her eyes full of a tremulous delight.

"I adore you, dearest!"

"Then, yes—if you insist upon an answer."

Mr. Clavering knelt at her feet.

"What joy!" he cried. "My queen! My empress! No tongue can tell how proud I shall be of this little hand!"

Myrtle's cheeks burned as she looked down upon her kneeling swain. Harry Payne had never wooed her in such dramatic style as this. She almost felt ashamed of herself as she remembered how she had felt when she had first met him.

"Help! help!" she shrieked.

And almost in the same instant there was a crash of breaking branches and a rush of many footsteps. Sense and hearing were leaving poor Myrtle, yet a strong, loving grasp sustained her, and she realized that the eyes of Harry Payne were looking tenderly into her own. And then all became a blank to her.

When she recovered her senses Harry was bathing her forehead with the clear water of the creek.

"Where—where is that—that terrible man?" she faltered.

"His keepers have him."

And then she beheld Reginald Clavering in the very unbecoming costume of strait-jacket and manacles, sitting on the bank at no great distance, in charge of two burly men.

"Don't be in a hurry, my lord," said one of them, addressing the whilom "Baron Rothschild" with offensive familiarity. "The wagon will be along in the twinkling of an eye and you will be back in your old quarters before you know it. No occasion for any further scene, miss," he added, turning affably to Myrtle. "He's as mad as a March hare, and has been these six years, ever since he gambled himself out of his senses in New York. But he's as cunning as a fox, or he never would have escaped from the asylum as he did, or dodged us all so long and so cleverly. He has such lucid spells that you might think him chief justice of the United States, and then he'll break out all of a sudden madder than a nest of hornets! It's lucky we came across this young gentleman, who knew here he was, or he might have killed you."

Myrtle closed her eyes, realizing once more the horrors of her recent situation.

"Take me home, Harry," she faltered.

Harry complied. And long before home was reached she had given him a promise that she would never look twice at any charming stranger who might come across her path in the future!—New York World.

## The Largest Ranch in the World.

The largest ranch in the world is located in Texas, and it consists of more than 3,000,000 acres, or about 5,000 square miles. The states of Rhode Island and Delaware could not contain this immense ranch. A dozen years ago, states the Ladies' Home Journal, when Texas needed a new state capitol, the Legislature adopted a novel plan to get it. A promise was held forth, that a vast tract of uncultivated land would be given in exchange for a suitable granite building at Austin. Senator C. B. Farwell and John Farwell formed a syndicate in Chicago and built the capitol, and in due time they came into possession of the immense domain.

## Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgetts-town, Pa. For sale by People's Drug Co.

## Earliest Type of Bicycle.

Despite all the claims of the French and English historians, the honor of producing the first vehicle of a nature similar to the modern bicycle belongs to Germany. Away back in 1649 a toymaker in Nuremberg, named Hugo Hautesch, made a two-wheeled vehicle, with which a person could propel himself rapidly along the roads. Ten years later these contrivances were in common use in Nuremberg.

There is a remedy for every ill—except for some of the remedies.

BUT MYRTLE DREW BACK.

bered how Myrtle she had been of his commonplace attentions.

"And now," cried her new suitor, arising, "now for the grand sequel—the denouement! Would you like to know, fair village maid, the name of the man you've won? Who am I?"

"Mr. Reginald Clavering of New York," answered Myrtle, innocently.

"Better than that, dearest! I spoke a brief while ago of Baron Rothschild. I am Baron Rothschild."

"You, Reginald?"

"And not only Baron Rothschild, but Sir Francis Baring, and John Jacob Astor, all rolled into one!"

Myrtle could only stare at him in speechless horror.

"And now to be off for Europe by telegraph," resumed the stranger, his eyes rolling hideously as he seized her hand again. "Every-day mortals are obliged to travel by rail, but we'll mount the wires! Come!"

But Myrtle drew back, her real situation dawning upon her. She was alone in these solitary woods with a raving maniac!

## MUST PAY FOR LYNCHINGS.

**Sheriffs to Be Held Responsible for the Safety of Their Prisoners.**

Indianapolis, Ind., May 17.—Judge John H. Baker of the United States District court dealt a blow at lynching Tuesday by holding that the heirs of Marion Tyler, who was lynched at Scottsburg several months ago, had a right of action for damages against the sheriff of the county and his bondsmen. The case, which is for \$25,000 damages, is expected to come to trial in about a month. In holding that a sheriff is responsible for the prisoners in his care, the court said in part:

"If the law imposes a duty of care in respect to animals and goods which he has taken into his possession by virtue of his office, why should not the law impose the duty of care upon him in respect to human beings who are in his custody by virtue of his office? Is a helpless prisoner, in the custody of a sheriff, less entitled to his care than a bale of goods or a dumb beast? The law is not subject to any such reproach?"

As a result of this civil case the state hopes to secure evidence upon which it can prosecute the men who did the lynching.

## VETERANS AT DANVILLE.

**Old Soldiers Assemble for Annual Encampment of Illinois G. A. R.**

Danville, Ill., May 17.—The annual encampment of the Illinois G. A. R. promises to be a great success. Thousands of delegates are in the city. Thus far Capt. Inman seems to be in the lead for the commandership, but Senior Vice Commander Kauffman's forces have not yet arrived.

The special train from Chicago bearing Gen. John C. Black, the grand commander, came in last night. The reception committee presented Gen. Black on his arrival with a beautiful G. A. R. badge of carnations.

There was a campfire at the armory last evening and band concerts in the public square. The parade takes place this afternoon at 1:30.

Resolutions will be introduced during the reunion asking the national encampment to admit to membership the participants in the late Spanish war. Chicago will be indorsed for the grand encampment of 1900.

It was officially announced that if the governor's taxation program were not adopted he would convene the legislature in special session as soon as it adjourned.

Berlin, May 17.—The committee of the Prussian diet has rejected the canal bill by a vote of 17 to 11.

## HOME duties to many women seem more important than health.

No matter how ill they feel, they drag themselves through the daily tasks and pile up trouble. This is heroic but a penalty has to be paid.

A woman in New Matamoras, Ohio, Mrs. ISABELL BRADFIELD, tells in the following letter how she fought with disease of the feminine organs until finally forced to take to her bed. She says:

"DEAR MRS. PINKHAM—I feel it my duty to write to you to tell you that I have taken Lydia E. Pinkham's Vegetable Compound and think there is no medicine in the world like it. I suffered for nine years, and sometimes for twelve weeks at a time I could not stand on my feet. I had female troubles of all kinds; backache, and headache all the time. Seven different doctors treated me. Some said I would have to go to the hospital and have an operation performed. But oh! how thankful I am that I did not, that I tried your Vegetable Compound instead. I cannot say too much in its praise, nor thank you enough for what it has done for me. I want you to publish this in all the papers for the good of other sufferers."

advice is promptly given without charge.

The present Mrs. Pinkham's experience in treating female ills is unparalleled; for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, advising and helping by letter as many as a hundred thousand ailing women during a single year.

## THIS DAY IN HISTORY.

1740—Dr. Edward Jenner, discoverer of vaccination, born; died 1823.

1829—John Jay, statesman, died in Westchester county, N. Y.; born in New York city 1753.

1869—Talleyrand, famous French diplomat and minister to Bonaparte, died in Paris; born 1754. There were many Talleyrands, and the chief of them had H. W. Herbert, many handles to his name, as Charles Maurice de and Prince of Benevento, but was very well identified in his day and will be in history by the simple name Talleyrand; but it was declared that "Lenny" is given to a man to conceal his thoughts. Prescribed by Robespierre, Talleyrand found an asylum in America and wrote a famous memoir on America's commercial relations.

1888—Henry William Herbert (Frank Forrester), novelist, died in New York; born in London 1839.

1891—Scorins destroyed property valued at \$1,000,000 in Ohio, Michigan and states westward.

## GOOD WORK DONE.

The Chicago Times-Herald speaks of the work of the Wisconsin Legislature as follows:

The long session of the Wisconsin Legislature which has just adjourned will be notable in the annals of state legislation for the large number of difficult measures that have engaged its consideration, as well as for the important character of the enactments that will be presented to Governor Scofield for his signature.

The state of Wisconsin is already leading the western states in many matters of state enterprise and state reform. More important however, is the measure passed by the recent session of the legislature which provides for the appointment of a permanent state tax commission to investigate the general subject of taxation and recommend legislation for the modification of the assessment system of the state. That this commission is not going to be a mere junketing committee for making pleasure excursions at the state's expense is evident from the character and standing of the men already appointed by Governor Scofield to investigate and study the tax problem. Like all other western states Wisconsin is confronted with the necessity for raising more revenue from the taxable property of the state, and in order to do this new methods must be devised for locating property that now manages to escape taxation and for compelling corporations to pay in proportion to the earnings of their property. It is highly probable that the Ford law, recently enacted by the legislature of New York, for taxing franchises, will receive some attention from the commission. In fact the results of the operation of this law will be watched with interest by all the western states.

In addition to laying foundations for a complete revision of the taxing system the legislature passed a law to prohibit the use of railway passes and franks by public officials, a law to prevent legislative lobbies from controlling legislation, also a law to regulate marriages, which will wipe out the disgrace brought upon the state by the Milwaukee elopements.

The state is to be congratulated upon the good work of a legislature that seems to have brought unusual intelligence and honesty to the consideration of measures affecting the welfare of the commonwealth.

## GLORY ENOUGH FOR ALL

The St. Louis Globe Democrat says that it is not worth while for the army and navy to quarrel over the work done in the Philippines. There will be glory enough for both. Neither is likely to be slighted in the distribution of honors. The United States has not neglected any deserving officer of either arm so far. It is not likely to do so at any time. It may be true, as the naval officers declare, that the real work of capturing Iloilo was done by the navy, and that the town was already occupied by the marines before Col. Miller's soldiers got a chance to land. If that is true the situation is different from what the authorities in Washington supposed. Miller was promoted and was retired on his new rank. If the state of things reported by the naval officers be strictly correct, there will probably be some promotion in the navy also. The United States is a republic which is not ungrateful.

## Artificial Dreams.

Psychologists have undertaken the scientific study of dreams. When the olfactory sense of a sleeper is stimulated by an odor, such as that of heliotrope, not only does he dream of "smelling violets," but visual images of flowers appear to him. If the experiment is prolonged, the dream visions become complex and filled with strange imagery. A vibrating tuning fork held near a sleeper's ear made him dream of a lion roaring, and when a little salt and water was put on his tongue he dreamed that he was eating olives.

## ALL ODD FELLOWS MUST NOW SETTLE

## IMPORTANT DECISION BY THE SUPREME COURT.

Policy Holders Must Meet the Assessment Levied on Them by Assignee—The Case Was Contested by Eleven Dodge County Residents But the Decision Affects Entire State.

Assignee Fulton of the Odd Fellows' Mutual Life Insurance company, who prosecuted several members of the defunct order in the Rock county circuit court before Judge Bennett, won another victory in the Supreme court yesterday. Eleven of the policy holders of the company residing chiefly in Dodge county, who contested the payment of thousands of dollars levied on them by the assignee, were sued in the justice court. The justice failed to sign the entries in his docket relating to the case, when several adjournments were taken and they carried the case up, arguing that the justice of the peace lost jurisdiction of the case by his failure to sign the docket. The Supreme court, in an opinion written by Justice Bardeen, holds that the failure to sign does not invalidate the judgments against the policy holders and they must pay. The justice decided the case for the assignee, but the Dodge county circuit court took the opposite position, and the Supreme court comes around to the first stand of the justice. The amounts are small, but the case is important, as it is a test of this question.

## Quick Work on the Bible.

Recent events have stirred the British and Foreign Bible society to some prompt feats of translation, and portions of the new testament in no less than four tongues are in preparation for the Philippines, says the Boston Transcript. The first three gospels and the Acts in Tagalog, the language of the dominant native race there, are actually printed; St. Luke's gospel in Ilocano is nearly finished; and the same book in Bicol is ready for issue. These renderings, it appears, are largely due to the energy of the society's agent in Madrid, the Rev. R. O. Walker, who secured the collaboration of some exiled Filipinos. Almost the whole testament has been translated into Pangasinan. Another notable undertaking is the printing of St. John's gospel in Lusoga, for use in those districts east of the Nile. This version has been made by the Rev. F. Rowling of the Church Missionary society and is regarded for many philological reasons as an interesting addition to the 400 or so of languages and dialects in which the sacred books are circulated from Queen Victoria street, London.

## Plants Used for Commercial Purposes.

It is interesting to know that 4,200 species of plants are gathered and used for commercial purposes in Europe. Of these, 420 have a perfume, that is pleasing and enter largely into the manufacture of soaps and soaps. There are more species of white flowers gathered than of any other color—1,124 in all.

J. F. BEMIS.

There Are Self-Made Men Physically as Well as Financially.

There is, it is true, as great an inequality in the inheritance of wealth or brains, says the North American Review. Some are born with a fortune of vigor and soundness so large that not a lifetime of eager squandering will leave them poor and others enter the world paupers of need so dire that no charity from medicine can ever raise them to comfort; but most of us have just that mediocre legacy of vitality which renders us undistinguishable units in the mass. It lies in the hands of each to improve or waste that property as he chooses, for there are self-made men physically as well as financially; those who, because of ancestral wastefulness, have only a sliver of health and turn it into a fortune; and there are spendthrifts of health who come to as sorrowful case as spendthrifts of gold. The body is a realm where a wise and frugal ruler brings happiness as surely as a foolish one insures distress, and wisdom here, as elsewhere, lies in learning and obeying natural laws.

Elephants as Nurses.

Siamese women intrust their children to the care of elephants, who are careful never to hurt the little creatures; and if danger threatens, the sagacious animal will curl the child gently up in his trunk and swing it up and out of harm's way upon its own broad back.

The Brain's Weight.

The average weight of the brain of an adult male is three pounds four ounces. The nerves are all connected with it directly or by the spinal marrow. These nerves, with their branches and minute ramifications, probably exceed 10,000,000 in number.

## WINE OF CARDUI

## A LITTLE DOES MUCH.

BOONE, IOWA, Dec. 14.

No tongue can tell what I have endured in the past ten years with my monthly sickness.

While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.

MRS. GRACE LAMPHERE.

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles."

## WINE OF CARDUI

## A LITTLE DOES MUCH.

BOONE, IOWA, Dec. 14.

No tongue can tell what I have endured in the past ten years with my monthly sickness.

While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.

MRS. GRACE LAMPHERE.

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles."

## DR. R. L. BROWN GOES TO PRISON

RECEIVES ONE YEAR SENTENCE  
THIS MORNING.

Pleading Guilty Before Judge Bennett to the Charge of Forgery—Case of Anna J. Brown vs. Katherine Wood Called This Afternoon—Other Court Matters.

Before Judge John R. Bennett, of the Rock county circuit court, at 11 o'clock this morning, Dr. Robert L. Brown, of this city, pleaded guilty to the charge of forgery.

The court then sentenced the defendant to one year in the state prison at Waupun at hard labor from 12 o'clock noon of this day.

On the noon train Dr. Brown was taken to Waupun by Officer Samuel Brown, who also had in charge Samuel Cool, who yesterday was sentenced to one year and six months.

When Dr. Brown was arraigned this morning he was represented by Attorney M. G. Jeffris, of Fethers, Jeffris & Mount, the state being represented by District Attorney Jackson.

Defendant soon after entering court stood before the bar of justice and pleaded guilty to the charge of forging a note for \$400 on John Haight, of the town of Johnson, to which note the defendant forged the name William Duthie a well known farmer residing near Emerald Grove.

Dr. Brown is a graduate of the Chicago Veterinary college and is a young unmarried man who had his office on Court street.

He is the possessor of many friends, not only in this city but throughout the country; who will extend sympathy in his present trouble, and who unite in hoping that the lesson may be of value to him.

**Brown vs. Wood**

At 2 o'clock this afternoon in the circuit court of Rock county was called the case of Anna J. Brown vs. Katherine Wood.

The plaintiff is an aged resident of Janesville, who for many years has made her home near the outskirts of the Third ward in what is known as the Black Hawk district.

The defendant is Mrs. Brown's daughter.

According to the plaintiff, she deeded her home on Ringgold street to her daughter last September with the understanding that her daughter was to care for her and give her all the comforts of home for the remaining days of her natural life.

Mrs. Brown says that instead, she has received nothing but the worst end of it from morning till late at night and that several times she was roughly ejected from home.

Mrs. Woods says that her mother has got the wrong idea in the matter and that she has at different times given her \$300 in money. She also claims to have carried out all conditions of the agreement. Mrs. Brown now wants the deed set aside and her home returned.

The property is valued at \$1,500. Sutherland & Nolan appeared for the defendant and Mahoney & Ryan for the plaintiff.

## TROUBLE MAY YET ENSUE

Milwaukee Road May Soon Reach For Janesville Machine Company

Wrecking crews on both the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul railroads have been busily engaged today in clearing up the wreckage on North River street that was caused by the disagreement between the two roads over track territory.

Trouble still exists over right-of-way in the race district in territory fronting the Ford Milling Company mill.

At the conference held yesterday nothing of a definite nature was settled regarding the race district.

Today the Northwestern's pile driver crew were busily engaged in building the bridge to cross the race from Race street to the Ford mill.

When this mill is reached and the Northwestern endeavor to get possession of land for trackage, trouble may ensue.

It is also rumored that the Milwaukee road may soon endeavor to reach the Janesville Machine Company plant via Monterey.

Present indications are that no further trouble will be had on North River street, but that the difficulty is yet far from being settled.

**CROQUETTES.**—Care and practice are required for successfully making croquettes. The meat must be chopped fine, all the ingredients be as moist as possible without spoiling the shapes. Croquettes are formed in pear, round and cylindrical shapes. The best is beat, as the croquettes can be moist in this form than in the two others. Have a board sprinkled lightly with bread crumbs and roll the croquettes very gently on this. The slightest pressure will break them. Roll them in egg and afterward in crumbs, then place the croquettes in a frying basket, a few at a time, and plunge into boiling fat. Cook until a nice brown.

**VEAL CROQUETTES.**—One cupful of rice, one cupful of finely chopped cooked meat, one teaspoonful of salt, a little pepper, two tablespoonfuls of butter, half a cupful of milk, one egg. Put the milk on to boil and add the meat, rice and seasoning. When this boils, add the egg, stirring. Stir one minute. After cooling shape, dip in eggs and crumbs and fry as before directed.

## WOMAN ARRESTED FOR INJURING PIG

DISTRICT ATTORNEY JACKSON TO PROSECUTE.

Complaint Says Mrs. H. H. Megordan of Orfordville, Fractured Pig's Leg With Hammer—Charge Is Cruelty to Animals—Appeared Before Justice Helmboldt Yesterday.

District Attorney Jackson is in receipt of a message notifying him of the arrest of Mrs. H. H. Megordan, of Orfordville, who was brought before Justice Helmboldt yesterday on the charge of cruelty to animals.

A. A. Trosden, of Orfordville, is the complaining witness and according to the complaint filed, he alleges that the defendant cruelly attacked a hog belonging to him and that in the melee that followed the hog came out with a fractured leg.

The complaint further alleges that Mrs. Megordan used a hammer in her attack on said hog and that the porker's injuries were of such a serious nature that it was found necessary to put it to death in order to end its sufferings.

When arranged before Justice Helmboldt, Mrs. Megordan was represented by counsel and stated that she would fight the case to the bitter end. Justice Helmboldt then adjourned the case for one week so that District Attorney Jackson might be able to appear in behalf of the state.

Several witnesses have been subpoenaed on both sides and the coming trial promises to be a more interesting one on account of the interested parties being so well known.

Mrs. Megordan says that the hog has been making frequent visits to her place, doing much damage and that when she attacked it she did so in the endeavor to drive it from her property.

## PLANNING A REVOLT.

British Officers Accused of High Treason in South Africa.

Pretoria, Transvaal Republic, May 17.—The arrest at Johannesburg of eight alleged former British officers on the charge of high treason has caused intense excitement here. The prisoners were brought to Pretoria by special train. After they had been lodged in jail they were visited by the British diplomatic agent here. None of them has been in the employ of the British South Africa chartered company.

The arrests were effected by a detective who joined the movement, which, it is asserted, was for the purpose of enrolling men in order to cause an outbreak of rebellion.

Incriminating documents were found on the prisoners, and it is expected that further arrests will be made.

## IT CAN'T BE DONE.

No One Can Remain Well. No Chronic Disease Can Be Cured Unless the Stomach Is First Made Strong and Vigorous.

This is plain because every organ in the body depends on the stomach for its nourishment. Nerve, bone, sinew, blood are made from the food which the stomach converts to our use.

How useless to treat disease with this, that and the other remedy and neglect the most important of all, the stomach.

The earliest symptoms of indigestion are sour risings, bad taste in the mouth, gas in stomach and bowels, palpitation, all-gone feeling, faintness, headaches, constipation; later comes loss of flesh, consumption, liver and heart troubles, kidney diseases, nervous prostration, all of which are the indirect result of poor nutrition.

Any person suffering from indigestion should make it a practice to take after each meal one of Stuart's Dyspepsia Tablets, allowing it to dissolve in the mouth and thus mingle with the saliva and enter the stomach in the most natural way. These tablets are highly recommended by Dr. Jennison because they are composed of the natural digestive acids and fruit essences which assist the stomach in digesting all wholesome food before it has time to ferment and sour.

Stuart's Dyspepsia Tablets are sold druggists, full sized packages at 50 cents. They are also excellent for invalids and children. A book on stomach diseases and thousands of testimonials of genuine cures sent free by addressing F. A. Stuart Co., Marshall, Mich.

## TO IGNORE ARMY OFFICERS.

Gen. Brooke Decides on His Policy in Cuba.

## CIVIL GOVERNORS TO AGT.

Arms of the Insurgents Are to Be Turned Over to the Municipal Authorities—Each Private and Noncommissioned Officer to Receive \$75.

Havana, May 17.—The Cuban army officers will have no more than a nominal part in the distribution of the American millions among the insurgent soldiers, according to the revised scheme for the payment of the troops. The Cuban commissioners are entirely eliminated from the game, the civil governors of the provinces in which the several corps are concentrated taking their places as representatives of the army. Gen. Gomez or the corps commanders may, if they choose, nominate representatives to look after the interests of their commands, but all the responsibility of the American authorities centers in Major Dodge and the various colonels who will assist him and the civil governors.

The new scheme dodges the crucial point of the distribution of the rifles, affirming that the arms may be turned over to the municipalities, although the language of the following paragraph makes clear the understanding between Gen. Brooke and Gomez.

After directing the civil governors to use all diligence in arranging with the American officers for the payment of the troops, the decree makes these civil governors, with the alcaldes of the towns where the arms shall be deposited, responsible for the custody and care of the surrendered rifles, ordering them to report the number and character and condition of the weapons and to appoint a former insurgent to watch the armory wherever the number of equipments amounts to 500 or more.

Apart from the manner of payment, which is the essential thing in the eyes of the insurgents, all the features of the original scheme are retained, each private and non-commissioned officer receiving \$75. A sort of codicil to the testament makes provision for the distribution of the surplus to needy officers of Gen. Gomez' nomination.

The actual passing of money across the pay tables can hardly begin before the end of the week, because of the consultations with the civil governors to arrange the details of the distribution. It is practically settled that payment shall begin at Marianao.

The assembly and its partisans are celebrating what they regard as a substantial victory over Gen. Gomez and Brooke. A gathering of 130 chiefs, including all the important members of the defunct congress and a number of former adherents of the commander-in-chief, voted to assure the veterans' association of Santiago that Havana would join the eastern insurgents in refusing to surrender arms unless the provisions of Gen. Brooke's delayed decree should accord with the demand of the final manifesto of the assembly that the municipalities be made the custodians of the arms.

These chiefs announce that a change is expected in the order of disbandment, and promise another definitive resolution when the governor's decree appears.

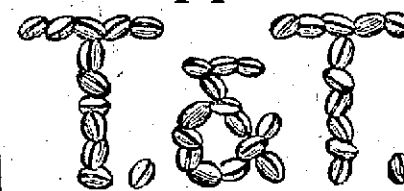

Partisans of the assembly affect to see in the hearty American concession of the army's demand a complete triumph of their principles and prophesy the complete overthrow of Gen. Gomez as soon as the army is disbanded. Conservative Cubans and anti-annexationists deplore the passing of Gomez, as the only man in Cuba who is able to unite the people against further aggressions of the United States. They call Gen. Brooke, instead of a tactless soldier, a politician and a diplomat, who has helped to make Gomez the idol of Cuba only to break him.

### GUARDS AND MINERS BATTLE.

Strikers Attacked Negro Miners Near Huntington, Ark.

St. Louis, Mo., May 17.—A special to the Post-Dispatch from Little Rock, Ark., says: "Forty strikers attacked 25 colored coal miners behind a stockade at mine No. 53, near Huntington, Tuesday, firing volley after volley at them. Two men on guard at the stockade returned the fire, killing one of the strikers. John Wright, one of the guards, was killed, and the other, James Campbell, seriously wounded. A number of new guards have been posted about the mine and more trouble is feared."

"The colored miners had been imported from Illinois several days ago to take the places of the strikers. Several warnings had been sent them to leave town or suffer the consequences. Today's attack, which occurred before daylight, was the result of their refusal to leave."

### MAY SHIP TO CHICAGO.

Oklahoma Cattlemen Angered by Missouri Quarantine Rule.  
Guthrie, Oklahoma, May 17.—The cattlemen of western Oklahoma are organizing a boycott on Kansas City, and threaten to ship all of their cattle to Chicago and South Omaha because of the recent action of the Kansas quarantine board in requiring inspection of all Oklahoma cattle entering the state. This rule was approved by the Missouri board, making shipment to Kansas City a difficult and expensive matter.

Kansas City, May 17.—When seen regarding the above dispatch H. P. Child, assistant general manager of the Kansas City Stockyards company, said that an effort would be made to get the Missouri board to rescind its action.

**Curtis Bill Constitutional.**  
South McAlester, I. T., May 17.—The Supreme court of the United States has handed down a decision declaring the Curtis bill constitutional and sustaining the lower courts in their decisions. The decision, which involves 115 different cases, covers everything in the citizenship cases brought up from the Cherokee, Choctaw, Chickasaw, Creek and Seminole nations. The decision declares that congress intended that appeals from the Dawes commission in Indian citizenship cases could only be taken to the territorial courts. These decisions will affect thousands of claimants for citizenship.

## Why Eureka Bread Is Best.

modern methods make wonderful improvement in all things, as much so in bread as in any other article. EUREKA BREAD

### Is Made With Modern Methods.

Our ovens are the very latest pattern and are a marked departure in build over the old style. They are moistened continually with live steam, which gives bread longer keeping qualities. Over two car loads of brick were used in their construction, making the heat of perfect temperature for baking. The fire is not in the oven chamber as is used with the old style, but under and above. These ovens have a greater capacity than all the ovens in the city together—486 loaves of bread can be baked at one time.

Ask your grocer for Eureka Bread, or stop the wagon.
